Opendental software

ELITE DENTAL ALLIANCE

Practice Management. Handled.

Open Dental Software is powerful, customizable, and affordable Practice Management Software. We streamline practice management so you can focus on patient care.

Why Choose Open Dental?

- Customizable to suit any practice size.
- Users have full access to their data.
- Third-party integrations add even more features to already extensive software.
- Our seasoned Conversions Team assists practices with a smooth transition from their current software.
- Online resources include a complete user manual and a vast library of video tutorials. Affordable on-site or online training options are available for staff to work with an experienced live trainer.
- Friendly, highly-trained technicians respond quickly to support needs.
- Online communities and forums for tips, tricks, and best practices provide insight from other Open Dental users.

Testimonials and Reviews

⭐⭐⭐⭐⭐

Don't take our word for it!

See what others have to say about
Open Dental Practice Management Software.

"It is my assertion that if every dentist downloaded the trial version (of Open Dental) and got a test data conversion (both FREE) and actually TRIED it, the other PMS companies would ALL go out of business. It is that good. It is that much of a BETTER VALUE. It blows the others away."

- Michael Barr, DDS on dentaltown.com

"The customer service is amazing both in results and calming frantic staff. The ability to customize to any practice environment has caused me to recommend this DPMS to all of my dental consultant clients."

- Lauren Bursell, Best Dental Help

"Absolutely hands down the best dental software. I have used many others and truly can say it's my favorite."

- Suzanne from Facebook reviews

"Open Dental offers every feature you could want in a dental practice management software, at a fraction of the price compared to its competitors."

- SoftwarePundit
