

# The Immediate Implant: Atraumatic Extraction and Immediate Implant Placement

Presented by Dr. Bach Le

Friday, May 2, 2025 • 8 CE Credit Hours

## COURSE DESCRIPTION

Immediate implant placement has gained popularity because it may reduce treatment time and the number of surgical interventions. A recent systematic review of scientific evidence supports immediate implant placement as a safe procedure when certain guidelines are followed. This course will utilize lectures and **hands-on exercises** to address all aspects of immediate implant placement including atraumatic extraction instrumentation and techniques, immediate implants in molar sites, management of extraction sites with labial wall defects, and much more. Discussion will focus on some of the most commonly asked questions, such as:

What is the best graft material for immediate implant placement in extraction sockets?

What type of interim provisional restorations minimize tissue loss?

What decisions should be made regarding immediate implant placement versus delayed implant placement?

## LEARNING OBJECTIVES

- Principles of proper implant positioning
- Utilization of minimally invasive tooth removal techniques
- Pros and cons of immediate versus delayed implant placement
- Differences in bone response between immediate and delayed implants
- Risk factors for complications with immediate implants
- Indications for grafting and what to look for in choosing a graft material
- Management of extraction sites with facial bony defects
- Management of the post-extraction site to minimize hard and soft tissue loss
- Incorporation of anatomically designed healing abutments for tissue preservation

## Dr. Bach Le

Dr. Le completed his specialty training in Oral & Maxillofacial Surgery at Oregon Health Sciences University and is currently Clinical Associate Professor of Oral & Maxillofacial Surgery at the Herman Ostrow School of Dentistry at USC. Dr. Le has lectured internationally on bone regeneration and dental implant-related surgery and has taught on six continents around the world. He is published in professional peer-reviewed journals and has authored or co-authored over 21 chapters in textbooks on bone regeneration and dental implants and served as editor of the Dental Implant section of the Fonseca Oral & Maxillofacial Surgery textbook (3rd edition). Dr. Le was inducted as an Honorary Member of the American College of Prosthodontists in 2014 and is a recipient of the Charles E. English Award in Clinical Science for “the most significant article” published in the Journal of Implant Dentistry for 2008. Dr. Le is a Diplomate of the American Association of Oral & Maxillofacial Surgeons, the American Dental Society of Anesthesiologist, and the International Congress of Oral Implantologists. Dr. Le holds Fellowship in the American College of Dentists, the International College of Dentists and the International Association of Oral & Maxillofacial Surgeons.

## SCHEDULE

Friday, May 2, 2025  
Registration 7:30-8:00am  
Lecture 8:00am-5:00pm  
Continental breakfast &  
lunch provided

## VENUE

Cain Watters &  
Associates, 1st Floor  
17 Cowboys Way  
Frisco, TX 75034

## TUITION

~~\$995~~ **\$498**  
**ELITE 50% off**  
**(ELITE50)**

## RSVP BY APRIL 25, 2025
